Our Liberator Support module allows staff at Liberator to remotely connect to your device using a PIN Code. This will be installed to your device with a shortcut placed on the desktop, which can be linked to a button in your vocabulary. This quick reference guide will talk you through that process. Please note this will only work if you are connected to Wi-Fi.

Download Liberator Support:

<https://www.liberator.co.uk/support/product/support-tool>

When you have downloaded the file, double-tap it to install the Liberator Support program. A shortcut to Liberator Support will be added to your desktop.

How to Start a Liberator Support Session

1. Select the **TOOLS** button.
2. Select **WIN/easyChat** or **Hide/Show NuVoice**.
3. You should now see the Windows Desktop.
4. Double tap on the Liberator Support Icon and wait approx. 5 -10 seconds for Liberator Support to start.
5. Now you should see Liberator Support displayed on-screen. The person who is supporting you will provide you with a PIN code to enter.

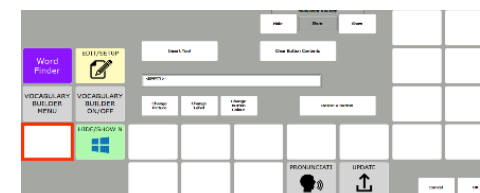

6. To enter a PIN code, select the keyboard icon on the Taskbar, tap &123 to bring up the numbers, and enter the PIN code given.
7. When prompted, accept the disclaimer stating that a member of Liberator would like to take control of your device.

Creating a Link that Starts Liberator Support from your Vocabulary

This instruction assumes you're adding it to the left off-screen buttons. To do this you must have Liberator Support on your desktop.

1. Select **TOOLS > TOOLBOX > VOCABULARY OPTIONS**.
2. Select **CHANGE OFF-SCREEN BUTTONS**.
3. Choose a button to use (I have selected the one highlighted in the red box which typically has right mouse click and isn't required).

4. Select **CLEAR BUTTON CONTENTS** to clear the button.
5. Select **INSERT TOOL**, then **INSERT TOOL** again.
6. Select **SPELL TOOL TO FIND**.
7. Type **RUN**, then select **OK**.
8. Select **RUN PROGRAM**.
9. Select **CHOOSE ANOTHER FOLDER**.
10. Select **USERS > ACCENT > DESKTOP**.
11. Select **"Liberator Support.exe"**.
12. Select **INSERT TOOL > SPELL TOOL TO FIND**.
13. Type **HIDE**, then select **OK**.
14. Select **HIDE/SHOW NUVOICE**, then select **OK**.
15. Select **CHANGE PICTURE > SPELL ICON TO FIND**.
16. Type the name of the picture you want, then select **OK**.
17. Choose a picture.
18. Select **CHANGE LABEL**.
19. Type the name for the button label, then select **OK**.
20. When finished, select **OK** to finish.
