The Realize Language (RL) Service

The Realize Language service is a web-based product that helps you see how a client is using a Liberator communication device. Data is collected on the device, which can then be uploaded to the Realize Language site and analyzed. Realize Language converts data into a number of easy-to-use reports that make understanding how someone is using words much easier.

CREATE A REALIZE ACCOUNT

To set up a Realize Language account, you will require an email address and password. If you already have a Realize account, then you can skip this section.

1. Go to <https://realizelanguage.co.uk/info/login> and select Create Account.
2. Enter your details into the various boxes on the Create Account page. The email and password that you use are for your Realize Language account.
3. You have now created your account for your Realize Language.

ACTIVATE YOUR RL ACCOUNT

Your Accent device includes a FREE one-year subscription to the Realize Language website. Your subscription is activated using a special CODE that is on a postcard in the shipping box. If you purchase a subscription online, the code is sent to you in an email.

1. Log in to your Realize Language Account: <https://realizelanguage.co.uk/info/login>
2. On the Subscriptions page, on the right-hand side, you will see "Have an Activation Code?" with a box into which you can enter your activation code.
3. Select Activate and you should see a screen that confirms your Realize Language account. If you get a "code not valid" message, check your code and try again.
4. Your Realize Language account is now active.

LOG INTO YOUR RL ACCOUNT

1. Go to <https://www.realizelanguage.co.uk/>
2. Click on the Login link at the top right of the screen.

3. Enter your Everything PRC! email and password, then select Login.
4. The first time you log into your Realize account you will be on a page called Manage People, and you will be asked to Create a New Person.

CREATE A NEW PERSON IN YOUR RL ACCOUNT

In the box headed Name, enter a name or identifier for the person whose data you will be tracking.

1. On the new page that opens, click on the link Add New Source. You must now provide a name for the device on which data is being tracked.

Screenshot of the "Create a New Person" form. The "Name" field is highlighted with a green box.

2. Use the Name box to give the device a name and, if you want, add any other comments in the Description box. You don't have to include a description, but you must have a name.

Screenshot of the "Russell1234 Summary" page. The "Add New Source" link is highlighted with a green box.

3. Select the Dashboard tab on the top and you will go to a page called Overview for the person you are tracking.
4. You have now set up a Person in your account and are ready to upload data from your device.
